

Recent investor services in VSDC

Mr. Luu Trung Dung

Manager of Research, Development and International Cooperation

E-Voting

- Web-based platform, allows investors to votes at AGM without attending in person.
- Starts service offering in 2017
- Not many companies have used the service
 - Reason:
 - Evoting is just optional, not mandatory for companies
 - Lot of companies (company's directors) don't want to provide Evoting to the shareholders, because of power interest
 - •
 - Solution:
 - Asking for new regulation, top 100 listed companies have to provide evoting opportunity to their shareholders
 - Improve/update the Evoting system

E-Passbook

- Mobile App provides portfolio information (updated balance, market value...) at a glance to investors, who have account with VSDC's Members (Depository Participant)
- A preliminary feasibility study was done in 2020
- However, Epassbook development has to wait until VSDC's new core system is go live
